BEST AVAILABLE COPY

B. ☐ Any patents, publications or other information which are listed on Form PTO-1449 or on the copies of Form PTO-892, but which are not enclosed herewith, were previously cited by or submitted to the PTO in one of the following applications which has been relied upon for an earlier filing date under 35 U.S.C. § 120:

C. ☒ Because the present application was/is being filed after June 30, 2003, no copies of the U.S. patents or U.S. patent application publications which are listed on the attached Form PTO-1449 are enclosed pursuant to the waiver of 37 C.F.R. § 1.98(a)(2)(i). Any foreign patent documents or non-patent literature listed on the attached Form PTO-1449 are enclosed herewith.

D. ☐ This is a PCT application in the entry of the National Phase in the United States. A copy of the International Search Report is attached for the Examiner's information. The documents listed on the International Search Report are listed on the attached Form PTO-1449 for consideration by the Examiner and for listing on any patent resulting from this application. Since the International Search Report was from the US, EPO, or JPO search authorities, copies of these references should have been supplied to the USPTO under the trilateral agreement and are believed to be in the file of the above-identified application. III. CONCISE EXPLANATION OF THE RELEVANCE (check at least one box)

A. ☒ Except as may be indicated below in (B), all of the patents, publications or other information are in the English language (concise explanation not required).

B. ☒ A concise explanation of the relevance of each patent, publication or other information listed that is not in the English language is as follows (see 37 C.F.R. § 1.98(a)(3)):

- ☒ See the attached foreign patent office communication from a counterpart foreign application: International Search Report for corresponding International Application No. PCT/DK03/00142 dated June 10, 2004.
- ☒ An English abstracts are provided below for: FR 2,611,671 and FR 2,787,317.

A partial English language translation for FR 2 611 671: FR 2 611 671 relates to a pill dispenser informing the user when to take medication. This dispenser also (see page 5, lines 25-28) is able to determine compliance in the manner, where it can inform the user that it now is no longer sufficient to take the next pill. This would be the case with contraceptive pills, where the next pill should be taken no later than 36 hours after the previous one. Is this not the case, one can no longer assume that one is protected. This dispenser is able to inform the user thereof.

A partial English language translation for FR 2,787,317 (EP 1 016 399): FR 2,787,317 (EP 1 016 399) relates to a dispenser adapted to inform a user of when medication is to be taken and which is adapted to determine, when the user gains access to the medication.
